Information on Doctoral Committees according to § 6 Doctoral Regulations for Faculty II – Mathematics and Natural Sciences of 16 June 2021

regular case:

reviewers are usually university teachers (professors, habilitated university lecturers)

ATTENTION:

doctoral committee must include 1 reviewer that is independent (no relation to the doctoral candidate \rightarrow supervision, co-authorship, employment relationship or the like)

chairperson:

- moderating/documenting task (expertise in the field of the dissertation is not necessary)
- no relation to the doctoral candidate (supervision, co-authorship, employment)
- from another section/research unit or Physical Institute (≠ section/research unit or Physical Institute in which the dissertation was prepared)

the doctoral candidate proposes a doctoral committee (chairperson + reviewers) the Faculty decides on the appointment of the doctoral committee (large doctoral committees of more than 3 reviewers are an exception)

Please contact the doctoral degree office, if you have any further questions.
